

To whom it may concern;

I respectfully request that you reconsider NAB's petition 04-160. I purchased my xm radio almost a year ago and I love the freedom I have and the amount of channel choices that are avail. It is a wonderful product and I feel that they have the right as the tv,cable and satellite providers do to provide consumers with the most up-to-date info including weather and traffic reports.
Thank you for your time

Karen Wiggett
